

DARK **QUEEN** DUCK

INTRODUCTION

Gaming are nowadays one of the most rapidly growing markets. According to “Statista,” the gaming market, the number of users is expected to amount to 3.10 billion by 2027. User penetration will be 35.2% in 2023 and is expected to hit 39.0% by 2027. The largest market are mobile games with a market volume of US\$286.50 billion in 2023. Social gaming is growing with an expected revenue of 242.7 billion in 2027. Dark Queen Duck aims to play a major role in the crypto gaming market. It is the first “Play to Burn” game, that combines the thrill of waterfowl hunting with the power of blockchain technology and cryptocurrencies. This document presents an overview of the Dark Queen Duck project. Dark Queen Duck is here to deliver the most addictive and thrilling shooter experience that will keep you hooked from the moment you start. The game aims to take it to the next level by integrating blockchain technology, specifically utilizing smart contracts and cryptocurrencies, to introduce a play-to-burn model. At the beginning the game will be open for everyone. In phase 3, being able to have access to the game, you need to own at least 1’000’000 DQD tokens.

GAMEPLAY

Dark Queen Duck provides players with an immersive waterfowl hunting experience being fun and addictive. Each successful hunt will burn up to 10'000 DQD tokens which leads to a decrease of token supply.

CRYPTO-ENABLED ECONOMY

Dark Queen Duck employs a native cryptocurrency, let's call it "DQD", which acts as the fuel of the ecosystem. The tokens will be burned after successful hunts, additionally you will need them to play the game. These tokens are stored securely on the blockchain, ensuring transparency and trust within the ecosystem. DQD tokens can be bought on an exchange.

PLAY-TO-BURN **MODEL**

The play-to-burn model in Dark Queen Duck provides players with a decrease of token supply for their hunting achievements.

DARK **QUEEN** DUCK

TOKENOMICS

Token symbol

The total token supply of DQD is
1,000,000,000,000,000,000,000,000,000.

It is built on the Binance Smart Chain. The supply goes to CEX listings, partnerships, burns, airdrops, staking, and more.

Staking

Stake DQD token and start earning more.

Utility

DQD tokens can be used for staking and exclusive access to the game. Therefore 1'000'000 token are needed when free trial is over.

Burn

Every successful duck hunt burns tokens and decrease the token supply.

DQD token has been audited.

COMMUNITY AND GOVERNANCE

Dark Queen Duck values the active participation of its community. Let's pump everyone up and spread the word about this fun game. This will define the success of the project Dark Queen Duck. Every community member must hustle and contribute to our common vision. Making Dark Queen Duck the best meme game in the entire crypto space.

ROADMAP AND FUTURE DEVELOPMENT

The Dark Queen Duck team is committed to continuous improvement. We aim to make it possible to play the game on the phone soon, as the largest market is mobile games, with a market volume of US\$ 286.50bn in 2023. Dark Queen Duck has the right to be engaged in any actions with DQD token. At the beginning, the game will be open for everyone. In phase 3, to have access to the game, you need at least 1'000'000 DQD tokens.

ROADMAP

- 🚀 **Market research & game trailer**
- 🌐 **Website launch (we've got a nest online just for you!)**

It is the first “Play to Burn” game, that combines the thrill of waterfowl hunting with the power of blockchain technology and cryptocurrencies. The future of gaming is here, and Dark Queen Duck is at the forefront of this exciting evolution.

RISK

Purchasing DQD tokens involves an element of risk and may lead to the loss of a substantial part or the entirety of the principal monies advanced. Before purchasing DQD tokens, diligently and thoroughly assess and consider the risks identified in this whitepaper, as well as others risks not included or anticipated in this document. Crypto assets can be subject to expropriation and/or theft. Computer hackers or other malicious groups or organizations may attempt to interfere in several different ways - these may include malware attacks, distributed denial of service attacks and consensus-based exploits such as a 51% attack that could result in the loss of DQD tokens or the loss of the ability to access DQD tokens. Because of the immutable nature of blockchain transactions there may be no remedy if a successful attack by malicious actors was to take place. Dark Queen Duck is still under development and its design concepts, consensus mechanisms, algorithms, codes, and other technical details and parameters may be constantly and frequently updated and changed. Although this white paper contains the most current information relating to the Dark Queen Duck, it is not absolute complete and may still be adjusted and updated from time to time. The Development team has no ability and obligation to keep holders informed of every detail including development progress and expected milestones.

The regulatory status of crypto assets remains in flux and varies from jurisdiction to jurisdiction. The regulation of virtual currencies has become a primary target of regulation in all major countries in the world. It is impossible to predict how, when, or whether regulatory agencies may apply existing regulations or create new regulations with respect to such technology and its applications, including DQD tokens, with a negative impact. Uncertainties regarding tax legislation relating to crypto assets could leave token holders exposed to unforeseen consequences, such as being taxable even if applied retrospectively or to be applied in the future. Every single prospective DQD token buyer should weigh up their own individual risk appetite. Cryptocurrencies may be unregulated in your jurisdiction. The value of cryptocurrencies may go down as well as up. Profits may be subject to capital gains or other taxes applicable in your jurisdiction.
